

CORPORATE TRADING PROFILE

Thongthai Intertrade Co., Ltd.

A Trading House Of Commodities · Nonthaburi, Bangkok Metropolitan Region, Thailand

WHO WE ARE

Thongthai Intertrade is an opportunity-driven Thai commodity trading house specializing in food, oil & gas, prime materials and precious metals. Headquartered in Nonthaburi in the Bangkok Metropolitan Region, we hold strong roots in the regional Thai market and maintain an active network of trading partners across Asia, the Gulf Countries, Europe and the Americas.

We are a conservative, classic trading partner — fast, reliable and uncomplicated to work with. We act apolitically and professionally. Our priority is to ensure standardized quality of the goods we move and to pass on negotiated price advantages to our customers.

TRADING DESKS

FOOD	Thai rice (Hom Mali, white 5%/25%, parboiled, glutinous) · Sugar (ICUMSA 45, VHP, raw cane) · Fish & shrimps and adjacent staples. Direct mill relationships, bulk and bagged, container to vessel scale.
ENERGY	Crude · Refined products (gasoline, diesel EN590, jet fuel) · Bunker fuels (VLSFO, HSFO) · LPG. Vetted refinery, terminal and vessel-broker counterparties across Asia and the Gulf.
PRECIOUS METALS	Physical gold sourcing and trade facilitation anchored in Bangkok, with reach into Dubai, Hong Kong, London and Switzerland. LBMA-recognized refiners where available. KYC and AML at every step.

REGIONS

Source: Thailand and the wider Southeast Asian region.

Placement: Asia · Gulf Countries · Europe · Africa · Americas.

Strategic hubs (gold): Bangkok · Dubai · Hong Kong · London · Switzerland.

EXECUTION PRINCIPLES

Thongthai Intertrade Co., Ltd.

Knowledge before commitment Every trade begins with sound knowledge: market reading, counterparty checks, comprehensive information and thorough due diligence.

Vetted counterparties Refineries, mills, brokers and end-buyers are screened before any commercial commitment.

Documentary discipline POP, SCO, ICPO, dip-test, SGS, B/L, COA, phytosanitary, certificates of origin — the path is agreed before the trade.

Provenance & compliance KYC and AML protocols apply to every party in the chain. Provenance documentation precedes precious-metals transactions.

Discreet execution Counterparty information is protected end-to-end.

No fantasy trade We do not entertain unverifiable allocation claims or chains without mandate.

WHY WORK WITH US

- ◆ Thailand-rooted with direct mill, refinery and supplier relationships
- ◆ Globally connected: working network across Asia, the Gulf, Europe and the Americas
- ◆ Disciplined process: fewer, well-executed trades over high volume on shaky ground
- ◆ Documentation-first: clean, traceable paperwork end-to-end
- ◆ Commercially serious: we move fast when conditions are right, walk away when they are not
- ◆ Long-term focus: we build supply relationships, not one-off opportunism
